Want to organize CHaSE 2019? 21

Solna, 7th of March 2018

Dear Participants,

We are pleased to welcome you to our 3rd annual CHaSE meeting at Karolinska Institutet today. Hopefully, our distinguished speakers, workshops and exhibitors will bring you one step closer to your dream job by answering questions such as:

What is the difference between an academic CV and a professional CV?

Will I need a PhD to progress within a life science career?

What entry-level jobs can I apply for at a pharmaceutical company?

How can I make myself more attractive as a researcher in business consulting?

How do I start my own business in Sweden, what funding agencies can I apply to?

We hope you will have a stimulating experience at CHaSE 2018 and take advantage of all the networking opportunities.

Sincerely,

your CHaSE 2018 organization team

What is CHaSE?

The Careers in Health and Science Exposition (CHaSE) is a student-driven initiative, a career fair with interactive workshops and presentations, taking place on an annual basis. CHaSE is organized by Karolinska Institutet's medical student association, Medicinska Föreningen, and aims at providing BSc/MSc/PhD students, Post-Docs and researchers with a background in healthcare and/or the life sciences, with an overview of their career opportunities and support with future job applications. In addition, CHaSE offers students, KI employees and external businesses a platform to interact.

The CHaSE 2018 organization team consists of students and Post-Docs from Karolinska Institutet, Stockholm University and Uppsala University.

Important information: Registration for the presentations and workshops is required via the CHaSE website: www.chasesthm.se. For the registration page, CHaSE 2018 collaborates with *StudentNode*.

Please be on time for the presentations and workshops!

CHaSE 2018 Team

Suzanna Queckbörner
Project Leader
PhD Stud Regenerative Medicine

Nadilly Bonagas

Participating Companies

Pharma

Apotekarsocieteten är en oberoende ideell förening och en mötesplats för professioner i hela läkemedelskedjan från forskning och utveckling till användning, och som verkar för en för individ och samhälle gynnsam utveckling och användning av läkemedel. För mer information, vänligen besök <https://www.apotekarsocieteten.se/>

Pharma

We are a global, innovative biopharmaceutical business with our focus on research, development and marketing of prescription medicines. We specialise within the following areas of disease: Cardiovascular and metabolism, respiratory, inflammation and autoimmunity, oncology, neuroscience, infection and vaccines. AstraZeneca operates in over 100 countries and its innovative medicines are used by millions of patients worldwide. For more information please visit www.astrazeneca.com.

Learn more about AstraZeneca during their presentation at 14:00-14:20.

BCG

THE BOSTON CONSULTING GROUP

The Boston Consulting Group has more than 90 offices in 50 countries, more than 14,000 employees, more than 900 partners, and more than 20,000 alumni. Now in our sixth decade, we continue not only to grow but also to embody the same timeless sense of purpose and the constant call for renewal that our founder Bruce Henderson instilled at our inception.

Learn more about BCG during their workshop at 15.30-17.00 (only pre-registered participants).

The EIT Health Alumni Network was set up as a cross-cutting initiative in 2017, with the goal of enhancing the wider EIT Health community by connecting enthusiastic alumni to the different EIT Health and cross-KIC Alumni activities. In 2018, the Network will focus on expanding its programme and add new offers and tools to the EIT Health Alumni Platform. The overarching target is to further strengthen the exchange among alumni and partners, resulting in activities in the digital and non-digital sphere.

Meet EIT Health Alumni in their coffee-lounge on level 4.

Novo Nordisk is a global healthcare company with more than 90 years of innovation and leadership in diabetes care. This heritage has given us experience and capabilities that also enable us to help people defeat other serious chronic conditions: haemophilia, growth disorders and obesity. Headquartered in Denmark, Novo Nordisk employs approximately 40,300 people in 75 countries and markets its products in more than 180 countries. Working at Novo Nordisk is a mutually rewarding commitment. Our growth provides you with professional development and career opportunities. Thus, we invite you to bring your personal ambition and passion to work.

Learn more about Novo Nordisk during their presentation at 14.30-14.50.

Naturvetarna, The Swedish Association of Professional Scientists, is a politically independent trade union for university graduates in natural sciences. Our goal is to ensure that you are secure in your employment, and able to develop in your professional life. As a professional association we are experts on the competence, skills and labour market for scientists.

Learn more about Naturvetarna during their presentation at 13.00-13.20.

Today's MSD is a global health care leader working to help the world be well. MSD is a tradename of Merck & Co., Inc., with headquarters in Kenilworth, N.J., U.S.A. Through our prescription medicines, vaccines, biologic therapies and animal health products, we work with customers and operate in more than 140 countries to deliver innovative health solutions. We also demonstrate our commitment to increasing access to health care through far-reaching policies, programs and partnerships.

Learn more about MSD during their presentation at 10.30-10.50 or visit www.msd.se.

Med drygt tio års erfarenhet av framgångsrik rekrytering av internationella talanger har vi nätverken och medlen för att säkerställa att våra uppdragsgivare hittar rätt kandidat till rätt tjänst.

Incluso är ett företag med spetskompetens inom rekrytering av internationella akademiker – talanger – på den svenska arbetsmarknaden. Vi har de senaste tio åren med stor framgång matchat internationella talanger med svenska arbetsgivare och byggt upp stora nätverk i Sverige och internationellt.

Take advantage of on spot CV/LinkedIn profile checks at Level 3.

Sirona är ett skandinaviskt managementkonsultbolag med visionen att skapa bättre hälsa, vård och omsorg. Vi skapar nytta för patienter, vårdgivare och samhället genom vår kompetens inom analys- och rådgivning, vår kunskap om preventiva hälsolösningar och vår passion för innovativa idéer. Vi är en långsiktig, strategisk och operationell partner till våra uppdragsgivare. Bland våra återkommande uppdragsgivare finns både offentliga och privata aktörer, såsom myndigheter, landsting och regioner, kommuner, sjukhus, hälso-, sjukvårds- och läkemedelsföretag.

Vi erbjuder hel- och deltidstjänster, samt internships.

Hör mer om oss vid vår presentation 10:00-10:20 eller besök oss på www.sironagroup.se

Mabtech was founded 1986 by researchers at Stockholm University. Today, we develop and produce a wide range of monoclonal antibodies to cytokines, immunoglobulins and apolipoproteins for in vitro applications. Our mission is to assist other researchers with high-quality, dependable research tools and expert technical support. Researchers around the world use our products to capture, detect and discover analytes with precision and accuracy.

WORK IN DENMARK

Work in Denmark is a public employment service for highly qualified international candidates looking for a job in Denmark, and Danish companies searching for talented foreign candidates. Work in Denmark is part of the Danish Ministry of Employment and member of European Employment Service (EURES). Our three Work in Denmark centres, located in Copenhagen, Odense and Aarhus, offer a series of recruitment services to employers and information and guidance to international jobseekers. In addition, workindenmark.dk provides the information to bring together Danish employers and foreign candidates.

Thermo Fisher S C I E N T I F I C

Thermo Fisher Scientific Inc. is the world leader in serving science, with revenues of more than \$20 billion and approximately 65,000 employees globally. Our mission is to enable our customers to make the world healthier, cleaner and safer. We help our customers accelerate life science research, solve complex analytical challenges, improve patient diagnostics, deliver medicines to market and increase laboratory productivity. Through our premier brands – Thermo Scientific, Applied Biosystems, Invitrogen, Fisher Scientific and Unity Lab Services – we offer an unmatched combination of innovative technologies, purchasing convenience and comprehensive services.

BioLamina

REVOLUTIONIZING CELL CULTURE

BioLamina is a Swedish biotechnology company with a global presence, offering cell culture matrices intended for culturing of primary cells. BioLamina is built on a scientific foundation with a legacy in matrix biology and solid experience in cell culture based research. The company was established in 2008 and was co-founded by Dr. Karl Tryggvason and his son Dr. Kristian Tryggvason. Today the company has 15 employees spanning from production, R&D, logistics, sales and marketing. Our quality system complies with ISO 9001:2015 and both management and employees follow well-defined standard processes and agreements.

Founded in 2016 by the Unipreneurs, Create² is Sweden's largest student entrepreneurship marathon, bringing together the most ambitious and creative students for a weekend of developing ideas into business plans. Diverse teams include developers, designers, business people or just a person with a bright mind. Applications to participate in the event are already open. We connect over 200,000 students from all over Sweden. Create² brings together these talented and driven students to create business ideas and new products in which sustainability is one of the most important aspects.

Learn more about create² during our hackathon workshop 10:00-12:00 (only pre-registered participants).

Description of presentations

Networking Essentials (09:30-09:50 & 15:00-15:20)

Networking. A competence that will help you in advancing your career. But, how do you actually "network"? How do you come into contact with the people you would like to have contact with and how do you maintain these contacts? Get useful tips on "how to network" during this presentation. This presentation will be given twice during the event day: (I) 9:30-9:50 (II) 15:00-15:20. Speaker: Andrew Hennigan.

Company presentation Sirona (10:00-10:20)

We are a consulting company that helps municipalities, counties and authorities to create the best possible health and social care services. Among other things, we work to identify patient groups at risk so they can receive care before they become high-level consumers of healthcare. This frees up resources, improves the individual patient's health and avoids unnecessary suffering.

Company presentation MSD (10:30-10:50)

Would you like to learn more about what its like to work at MSD? Then come to this presentation!

Today's MSD is a global health care leader working to help the world be well. MSD is a tradename of Merck & Co., Inc., with headquarters in Kenilworth, N.J., U.S.A. Through our prescription medicines, vaccines, biologic therapies and animal health products, we work with customers and operate in more than 140 countries to deliver innovative health

solutions. We also demonstrate our commitment to increasing access to health care through far-reaching policies, programs and partnerships. For more information, visit www.msds.se.

Panel discussion: KI Alumni & Friends (11:15-12:00)

Meet the KI Alumni and get inspired by their narratives!

- **Daniel Johansson** (PhD) - *Senior Medical Science Liaison at Novartis*
- **Federica Santoro** (Postdoc) - *Communication Officer, Uppsala Monitoring Centre*
- **Senia Rosales-Klantz** (PhD) - *Tuberculosis Expert, European Centre for Disease Prevention and Control*
- **David Komar** (BS Audiology, MS Health Informatics) - *RPA Developer at Digital Workforce Services Ltds*

Company presentation Naturvetarna (13:00-13:20)

The Swedish job market for life science graduates.

Naturvetarna, The Swedish Association of Professional Scientists, is a politically independent trade union for university graduates in natural sciences. Our goal is to ensure that you are secure in your employment, and able to develop in your professional life. As a professional association we are experts on the competence, skills and labour market for scientists. Through individual counselling and coaching, we provide you with the tools to improve your own work

situation and career opportunities. We offer all our individual counselling services in English. We represent you in all the sectors of the labour market, whether you are employed as a PhD student at a university, or working as an expert in a governmental agency or as a scientist in life science. Join us! www.naturvetarna.se/english. Get a head start! Listen to our talk on how to advance your career in life science.

KI Innovations AB (13:30-13:50)

What are healthcare and life science companies looking for when trying to employ a new person? How can applicants stand out and be invited for a job interview? How does the job application process work? Within this presentation, recruiters from industry are going to tell you everything about the do's and don'ts in the job application process.

Company presentation AstraZeneca (14:00-14:20)

AstraZeneca is a world leading pharmaceutical company with a world-class biologics capability. We focus our resources on six therapy areas where we believe our skills and resources can make the most difference. These areas include some of the world's most serious illnesses and together represent a major worldwide burden of diseases: cancer, cardiovascular, gastrointestinal, infection, neuroscience and respiratory and inflammation

Company presentation Novo Nordisk (14:30-14:50)

Novo Nordisk will be presented by Stephen Buckley PhD, a Department Manager within Global Research, the early discovery area

of R&D. Stephen will give a company overview, present his own personal career path & normal working day, moving to Denmark as a foreigner, as well as career opportunities at Novo Nordisk. As Novo Nordisk will also be represented by a Medical Doctor on our career stand, Stephen will also talk about the role of and opportunities for Medical Doctors within the company.

Company presentation Venture Cup (15:30-15:50)

Have you ever wondered how it is to work at a start-up company? Would you like to learn more about the challenges that start-ups have to face? Learn first-hand from people who have "started-up" their own company what experiences they have made. Speaker: Olivia Ekmark.

Description of workshops:

Create² (10:00 – 12:00)

Teaser, Hackathon

Founded in 2016 by the Unipreneurs, Create Squared is Sweden's largest entrepreneurship marathon, bringing together the most ambitious and creative students to transform ideas into business plans. Make sure to apply now. All students in Sweden can apply and no experience is needed.

Boston Consulting Group (15:30 – 17:00)

Working as a management consultant

This workshop is only available to selected PhD students [application deadline was on the 23rd of February].

BCGs interactive workshop is a unique opportunity for PhD candidates to get to know BCG and management consulting before taking your next career step. You will get a better understanding of what management consulting is all about. It will answer questions on what it is like to transition from academia to business, what a day in the consulting life looks like, and how management consultants with PhDs from diverse backgrounds can help solve problems in different industries. You will have the opportunity to meet consultants with scientific backgrounds and experience our work daily work through a case study.

Need some help?

Ask our volunteers- the people wearing white t-shirts with the CHaSE logo. They are happy to help you!

Want to be a part of CHaSE 2019?

Apply for the CHaSE 2019 Team today!

Organizing the CHaSE is a very challenging but rewarding experience; not only do you learn how to organize a large-scale event and to collaborate with team members with different backgrounds, but you also get in contact with company representatives from Sweden and abroad, collaborate with many different organizations at Karolinska Institute and last but not least- find new friends in your fellow team members. 😊

In case you would like to apply as a new CHaSE team member, please send your (1) CV and (2) a motivation letter/email including information on who you are, why you want to become a CHaSE team member, why we should select you as a new team member and what suggestions you would have for the upcoming CHaSE event to become even greater. Please also inform us about your plans for next year (are you planning to apply for exchange programmes or defending your PhD thesis, etc). Please send your application by latest the 30th of March 2018 to: info@chasesthlm.se. Good luck!
